

Lab-4A Assignment

1. Go through the SolidProfessor tutorials listed under Lab-4A to learn about sweeps, lofts, curves, and splines. Download corresponding part files from SolidProfessor and practice the techniques while watching the tutorials. You will apply these techniques in Lab 4B.
 - Please take the Review Test *due Wed July 15*.
2. Follow the SolidProfessor “*Hands-On Walkthrough: Door Latch Assembly*” and create the Door Latch Assembly, based on the parts (name stamped) that you made in Lab-3B.
 - Use “**Pack and Go**” and upload a single zip file of your assembly as “*LastName_DoorLatch.zip*” *due Fri July 17*.
